

Parisgrafs

LOCALLY SPEAKING

"In every work that he began he did it with all his heart—and prospered."

THE people appreciate the work of the city in removing the unsightly bumps from about the plaza. They were not only ugly and displeasing to the eye, but were detested by motorists because they marred the smoothness of the pavement.

NINETY bushels of potatoes to the acre and \$1.25 per bushel sounds mighty good, especially when it is applied to a Lamar county grower. If any appreciable amount of the vast acreage in the county could be made to yield at this rate it would mean an entirely different condition in Northeast Texas.

The day will come when lands in Lamar county will be put to better use; when greater revenues will be produced on the farms. We are traveling in that direction slowly.

A FRIEND was kind enough to mail this column a folder on the subject of "birds roost where nests are built" and adding that "airships do too." The article was by C. T. Watson, secretary of the chamber of commerce at Lubbock, a city that is really doing things.

West Texas towns were not as slow as we of East Texas in providing landing fields and airports. In several cities in West Texas a recent survey shows forty-six air lines operating 260 ships.

Paris people do not feel that an airport is of such great importance, or at least not enough folks here feel that it is. When Paris decides that it is important we will have at least a landing field, if not an airport with some equipment. Where there is a will there is a way.

FIREMEN and other city employees are to be congratulated on the beauty and attractiveness of the small park just east of the city hall. By their pride and constant attention it has been made one of the most beautiful small plots of ground in Paris.

EMPLOYEES in practically all the business houses in the city will be given "a day off" on the Fourth. This will enable them to enjoy the activities at the fair grounds. The celebration is staged by the fair association and the proceeds will be used in needed improvements on the buildings.

Our merchants promptly responded with the necessary money and other prizes for the big rodeo. Go where you will and you will not find a finer set of business men than we have right here in Paris. They have always been generous and progressive. Come to Paris.

WHILE it has always been dangerous and in violation of the traffic laws to drive through when the lights are amber, it will be even more dangerous with the installation of the new bell system for calling policemen. For this very good reason, Chief Short warns the people to refrain entirely from driving through an amber light.

There are many who have abused the traffic lights, but the majority of the people have shown a fine spirit of co-operation. That the system has proven popular, has reduced accidents and gives greater feeling of safety to both pedestrian and motorist will hardly be questioned.

THAT was a refreshing shower Wednesday morning. The folks were needing it about as much as the crops needed it. If one should judge from conversation.

OIL activities continue in Lamar and adjacent counties. It is through persistent efforts of folks willing to back their faith with money that oil fields are developed. Fields are developed.

Reed Smoot And Bride Honeymoon

SALT LAKE CITY, July 2. (P)—Senator Reed Smoot of Utah and his bride, formerly Mrs. Alice Taylor Sheets, Salt Lake City church and society leader, are honeymooning at Provo, Utah, the senator's home, for a few days before leaving July 19 for Honolulu.

They were married here Wednesday in the Latter Day Saints temple in a ceremony performed by Heber J. Grant, president of that church, in the presence of a few intimate friends and church authorities.

The veteran senator and Mrs. Smoot left immediately for Provo.

Texas to Maine Hop In One Day

PORTLAND, Me., July 2. (P)—Lieut. Yantis H. Taylor landed his army pursuit plane at the Portland airport at 6:25 p. m. (EST) Wednesday, completing a one-day flight from Laredo, Texas.

Lieut. Taylor left the Texas field at 11:10 a. m. (CST) and made five stops en route.

Lieut. Taylor's flight was made in the interests of army tactics to establish mobility possibilities in case of emergency.

SENTENCE NEGRO AT BEAUMONT TO DEATH IN CHAIR

Jury Deliberates Only 18 Minutes In Assault Charge Trial

NEGRESS TESTIFIES FROM STRETCHER

Conviction Follows Testi- mony of Two Girls of Attacks

BEAUMONT, July 2. (P)—After 15 minutes deliberation a criminal district court jury Wednesday sentenced Rainey Williams, 33, negro, to death in the electric chair on a charge of criminally assaulting Joyce Kellar, negro woman, on the night of May 1. The case went to the jury at 6:05 o'clock Wednesday afternoon and the verdict was read at 6:25 o'clock.

Conviction of Williams followed rapidly on the heels of testimony of two white girls that the defendant attacked them on practically the same spot and under the same circumstances in which the Kellar woman was shot and assaulted. One of the white girls told the jury that Williams assaulted her and the other testified that she screamed and got away from the negro.

Joyce Kellar, 29, negro girl, lay helpless on an ambulance stretcher as she told her story.

R. H. Jernigan, Port Arthur attorney who defended Williams under protest after appointment by the court, introduced no testimony for the defendant.

Judge R. L. Murray, who presided at the trial, warned the spectators against a demonstration of any sort upon hearing the verdict. He also commended the crowd for the orderly behavior in the court room during the trial. Judge Murray also publicly thanked Jernigan for the performance of the duty imposed upon him as Williams' attorney.

RODEO TO OPEN WITH PARADE

Leon Gilmore to Be Grand Marshal; Cothran Assistant

The rodeo which will be held at the Lamar County Fair grounds Friday Friday and Saturday July 4, and 5 will open with a parade forming at the market square, and parading around the business section of the town, it was announced Wednesday night by H. L. Baker. Leading the parade will be the Color Guard of the 132d Field Artillery. Following the guard will come the Paris municipal band, the American Legion, the Spanish War veterans, the Boy Scouts, new model cars carrying dignitaries and Confederate veterans. Bringing up the last of the parade will be the cowboys and cowgirls, including the rodeo contestants. Two of the bucking horses which are to furnish entertainment for the folks attending the rodeo will be in the parade. They are Midnight and Grey Hell. Leon Gilmon will act as grand marshal with Gus Cothran, assistant.

At the fair grounds the order of the events will be as follows: Friday, Grand Entry, at 2:30 p. m. Following the grand entry, will come the bronc riding, the wild horse race, the steer riding, the calf roping, relay races and goat roping and quarter-mile running races. The same order of events will be followed at all rodeo performances.

At 4 o'clock Friday afternoon, Hon. Pat M. Neff, former governor of Texas will make a patriotic address. Saturday afternoon, the county and district candidates will address the crowd.

State To Appeal From Land Suit Decision

AUSTIN, July 2. (P)—Appeal from the decision of the third court of civil appeals, handed down Wednesday, which declared invalid the claim of the state to 237 acres of valuable oil land in the Humble field of Harris county, will be taken as soon as the papers can be prepared. It was announced at the attorney general's department.

Charge Coercion To Boost Paper Price

WASHINGTON, July 2. (P)—Asserting that coercion by two Canadian prime ministers had been responsible for a \$5 a ton increase in the cost of newsprint paper, the Federal Trade commission recommended to the senate Wednesday development of Alaskan mills to offset a further impending price raise.

FORMER PARIS WOMAN IS ILL AT BONHAM

The many friends of Mrs. Mary Bray of Bonham formerly of Paris, will regret to learn of her serious illness. Her children, Mrs. Hettie Miller, Fate and Bill Bray were summoned to her bedside Wednesday afternoon.

SQUABBLE OVER PROFITS AND CONTRACTS AS FLIERS GO ON; BOYS DIFFER ON DATE TO STOP

Over 511 Hours Of Constant Flight Accredited

CHICAGO, July 2. (P)—The City of Chicago, record breaking endurance plane, continued to soar over Sky Harbor airport at 10:40 Central Standard Time Wednesday night, with 511 hours of constant flying to its credit.

CHICAGO, July 2. (P)—Having weathered the vicissitudes of nature as well as those mechanical to keep their plane aloft for the longest sustained period in the history of aviation, the "City of Chicago" endurance fliers Wednesday night were confronted by a legal reef in the form of an injunction suit to tie up the proceeds of the flight.

As John and Kenneth Hunter passed their 50th consecutive hour in the air at 4:40 p. m. Central Standard Time, word came to the field that stockholders of the "Chicago We Will" corporation had filed suit asking appointment of a receiver, an accounting of the earnings and an injunction to prevent disposition of funds received from the flight.

Brothers Defendants
The Hunter Brothers and their backers were named defendants in the suit filed by five men who claimed ownership of stock in the corporation formed last year to promote the endurance flights of the plane called the "Chicago We Will." The suit charges that the "City of Chicago" is the same plane as the "Chicago We Will" and still belongs to the corporation bearing the latter name.

Wilson Herren, one of the defendants, said that neither he nor the Hunters were connected with the "We Will" corporation.

Herren explained that he and the Hunters purchased the "City of Chicago" from the corporation after many unsuccessful attempts for an endurance record had been made with it. Deputy Sheriff Matt Porten arrived on the scene at about 5 p. m. armed with a chancery summons.

The summons was directed against the Hunter brothers, Bernard L. Majewski, Thomas P. Gordon, Herren and Michael Conroy, two backers of the present endurance flight; the "Chicago We Will" corporation and the Chicago Title and Trust Company, a corporation as receiver for the Chicago Air Service Inc., owners of Sky Harbor Herren and Majewski.

Discuss Physical Education Work For City Schools

At a meeting of the Paris school board Tuesday evening, considerable time was given over to discussion of plans for instituting in all schools of the city the program of health and physical education prescribed in the bill passed by the forty-first state legislature. In accordance with provisions of the bill, this will go into effect on September 1 this year.

Definite plans have not yet been completed by the state department of education for this work, but Prof. J. G. Wooten, city superintendent of schools stated yesterday that it would be carried out in accordance with such plans, by the various teachers of the city system.

General physical training and activities will be stressed, he said, rather than the usual type of school athletics in which a few students participate. Games, exercises and similar activities will be emphasized, so as to include and benefit all students as far as possible.

Other matters were discussed tentatively in regard to school affairs of the city, but no action was taken on these at the meeting.

BALLOON RACERS DRAW FOR PLACES

HOUSTON, July 2. (P)—Fifteen bronzed pilots who will take off here July 4 in the 29th annual national elimination balloon race drew for starting places late Wednesday.

Lieut. T. W. G. Settle of the navy, who won last year's race, drew number 1, meaning that his balloon must leave first at 6 p. m. Others will leave at five minute intervals.

The veteran H. M. Honeywell of St. Louis, flying as an independent drew place No. 2. He has not yet selected an aide.

Life Imprisonment Given For Slaying

LIBERTY, July 2. (P)—After deliberating two hours and a half, a jury Wednesday night returned a verdict of life imprisonment against John S. Swilley, charged with murder in the slaying of J. H. Hendrix, Houston carpenter.

Pioneer Actor Dies

BEVERLY HILLS, Calif., July 2. (P)—Anders Randolph, 69, pioneer screen character actor, died Wednesday. He underwent an operation recently and was believed to be recovering.

Parisarea Crops Helped As Rain Brings Relief To Several Texas Areas

By the Associated Press
Rain brought relief to several sections of sun-baked Texas Wednesday, with a respite from unseasonable warmth that had virtually the entire populace complaining of the intense heat.

North, southeast and the panhandle areas of the state were particularly favored by rain, and farmers welcomed it on their fields of cotton and corn and patches of late truck. The harvest of wheat was only temporarily halted.

Greenville boasted of nearly two inches of rain, while Nacozoches and San Augustine counties reported a general precipitation. Orange was happy over one and one-half inches and Beaumont's rain gauge registered one-fourth of an inch. Paris, Mount Vernon, Bonham, Tyler and Van Alstyne reported light showers. Port Arthur a little more than half an inch. Mexia .62, Mount Pleasant .72, Muleshoe .58, Sherman .28, Grand Saline one inch and Panola county .50.

Temark's shower was too light to register in the gauge, but it sent the thermometer to a minimum of 68 degrees. June was the driest in that section since 1914.

Dallas got relief from the heat as winds swept in from the north, sending the mercury down to a maximum of only 90 degrees in Paris Wednesday, several degrees under the maximum for the past ten days or two weeks.

VETERAN PLANE BUILDER RUNS AFOUL OF FEDERAL INSPECTORS; END HAPPY

By W. W. Chaplin
Associated Press Staff Writer
ROOSEVELT FIELD, N. Y., July 2. (P)—Anthony H. G. Fokker, who has been building and flying planes for half his forty years, ran afoul of Federal inspectors Wednesday when he waxed over enthusiastic about one of his ships, but the little drama of the air was closed with a happy ending.

The dynamic little designer, whose planes have won fame in peace and war, came to witness the departure of the Southern Cross.

With pride he walked around the old ship, which he sold to Sir Hubert Wilkins for Arctic exploration and which lay wintered before Kingsford-Smith had it rebuilt to fly around the world. When it lifted into the air with its five passengers and a heavy load of fuel as gracefully as a sport plane, Fokker could contain his glee no longer.

There was a little two seater on the line and in a flash he was in it, waiting only for Luba Phillips, a former pupil, to climb in. Wings wagging, he swooped over hangar roofs and circled close to the field "an aerial dance of jubilation. Spectators gaped and two department of commerce inspectors ran out waving their arms and shouting commands.

When Fokker shortly came down, the inspectors announced he had not only violated the rules (Continued on Page Nine)

Cunningham Hears Local Candidates

The county and district candidates met a large crowd at Cunningham Wednesday night. Candidates for representative, county judge, county school superintendent, and two of the candidates for district clerk made talks.

The speaking date for Milton Wednesday night was postponed because of a revival meeting being in progress there. However, a number of the candidates went to Milton Wednesday night.

NINE INJURED IN FACIST DISORDER

BERLIN, July 2. (P)—Nine persons were injured Wednesday when several thousand fascists and communists engaged in a violent wind-up of evacuation of Jews in Berlin and several Rhineland towns.

More than 100 arrests occurred during the disturbances. Police used sticks freely.

Chinese Rebels Are Repulsed

SHANGHAI, July 2. (P)—Defeated along a forty mile front in Honan province, northern alliance rebels fought fiercely Wednesday as government armies hammered them slowly toward the Yellow river banks.

Smashing through rebel lines extending from east of Lanfeng to west of Kaifeng, the nationalists seized important positions in the battle that may decide the rebellion's fate. A surprise attack on northern defenses near Lanfeng and sent rebels in wild flight. Government troops pursued to the Chihli province border.

Five thousand rebels were captured west of Lanfeng, said Nationalist dispatches.

3 PARIS YOUTHS HURT AS CYCLE AND CAR COLLIDE

Accident Occurs About 11 O'clock Wednesday Night

ONE UNCONSCIOUS AT 1 A. M. TODAY

Thomas (Pete) Givens, Morris Berry And Ralph Eubank Are Injured

Three Paris youths were injured, two seriously, Wednesday night about 11 o'clock when a motorcycle collided with an automobile at the intersection of East Houston and Twenty-sixth streets.

Thomas (Pete) Givens, 18, driver of the motorcycle, who lives on Lamar avenue road, had not regained consciousness at 1 o'clock Thursday morning. Morris Berry, 18, 61 North Twentieth street, was riding behind Givens, was in a semi-conscious condition.

The automobile was driven by Ralph Eubank, 236 Lamar avenue, who was taken to a hospital where he was treated for cuts and bruises. He received one cut over the left eye that required four stitches to close.

Givens suffered a fracture and hemorrhage of the skull, fracture of the right leg just above the ankle, and a number of bruises. Berry received a cut under the eye which caused a hemorrhage and a fractured nose in addition to being skinned and bruised.

The accident was said to have occurred when the automobile, going east on Houston street, and the motorcycle, going south on Twenty-sixth street, were in collision, apparently after the drivers had filled to see the approaching vehicles in time to avoid the smash-up. Another motorcycle following the one ridden by Givens and Berry was steered clear of the wreck. The driver of the second machine said that the impetus of the smash hurled one of the boys behind the car and the other to the front and side. The car was considerably smashed up by the impact. The injured were picked up by passing motorists and taken to a hospital.

Reward Offered In Texas Bombing

AMARILLO, July 2. (P)—Rewards offered for the arrest and conviction of the person who placed the explosive in the car of A. D. Payne, Amarillo attorney, which resulted in the death of his wife and the injury of his son, Wednesday totaled \$5,000.

Payne posted an offer of \$5,000 "old back" of the Amarillo News-Globe, \$500 and A. N. Cornell of Plainview, \$55 if the list was made up. Further Panhandle contributions were expected to double the reward.

The bomb, believed placed under the driver's seat in the car in an attempt upon Payne's life, exploded several days ago, blowing the car to bits, killing Mrs. Payne and seriously injuring A. D. Payne, Jr. Officers so far have found practically no clues to follow in searching for the person who planted the bomb.

Warn Farmers To Think In Terms Of Domestic Markets

WASHINGTON, July 2. (P)—Warning the American farmer to think in terms of a domestic market, the department of agriculture Wednesday predicted world wheat prices during the next seven years would average appreciably lower than those of the last seven.

The warning was made in connection with the 1930 world wheat outlook report, prepared a month earlier than usual so that Secretary Hyde and Chairman Legge might use it as a basis of argument in the new acreage reduction campaign to be instituted at Hastings, Neb., July 7.

Report Earthquake

LONDON, July 3. Thursday (P)—An earthquake was reported in Calcutta early this morning but no details were immediately available.

Woman Leaps From Plane 15,000 Feet in Air; Lets Device Pull Chute Rip Cord

ROOSEVELT FIELD, N. Y., July 2. (P)—Equipped with a device to take the task of opening her parachute from her own number hands, Mrs. Rita Schoemaker leaped from a plane more than 15,000 feet in the air Wednesday to establish a new woman's record for altitude jumping.

In a cabin plane the young broker's secretary, who came from a Chicago home to make her way in the money marts of Manhattan, flew upward until lost to sight. Then, between 15,000 and 16,000 feet up, she opened the door and walked out. A ten foot rope was secured at one end to the plane and at the other to the ring of her

parachute rip cord, so the umbrella opened without any action on her part.

She floated easily downward, rubbing her chin, which had been bruised by her belt buckle in the plunge. She landed among the squat trees of a nursery after narrowly escaping some high tension wires. Elated she rushed to press room and told reporters to give all credit to her two-year old son whom she had left in the hands of her friends.

The baby, presumably, had served as spur to her ambition.

A barograph carried in the plane will be sent to Washington for calibration.

11 Mexicans Are Held In Slaying Of Texas Officer

DALLAS, July 2. (P)—Eleven Mexicans were held in the Dallas county jail Wednesday night in connection with the slaying of Constable J. T. Davis of Mesquite.

Davis was shot and killed and Deputy Constable T. Gardner Jones powder burned on the face when they attempted to arrest four Mexicans caught taking accessories of a stolen automobile.

Rewards totaling \$350 for the arrest of the men who killed the constable were offered. Sheriff Hod posted a reward of \$100, and a short time later Governor Dan Moody, offered an additional \$250.

HOUSE ENDORSES LAW ENFORCEMENT PROBE FUND HIKE

\$250,000 Restored In De- ficiency Bill By Big Vote, 272 to 41

WASHINGTON, July 2. (P)—By a substantial majority the house Wednesday endorsed the Hoover law enforcement commission's investigations into all law enforcement and voted funds for its expense for a second year.

Administration leaders and drys on both sides overwhelmed a group of wets 272 to 41 and restored to the second deficiency bill \$250,000 and a red appropriation of \$88,000 in unexpended funds for continuation of the commission.

The item will be considered Thursday by house and senate conferees on the deficiency measure and an agreement is expected before noon so the senate may take final action on the same day. Chairman Jones of the senate finance committee has agreed to a demand by Senator Glass, Democrat, Virginia, for a separate vote in the senate on the item.

When the measure was first before the house the allotment was stricken out on a point of order by Representative La Guardia, Republican, New York, on the ground that legal authorities for the commission expired July 1. The senate allowed \$50,000 for the commission's expenses provided it confined its inquiry to prohibition. President Hoover then said he would procure private funds for the commission's other work.

Ocean Victors Are In Chicago

CHICAGO, July 2. (P)—Wing Commander Charles Kingsford-Smith and the three men with whom he recently flew across the Atlantic arrived in Chicago late Wednesday for a quiet reception, a brief radio broadcast and a good night's sleep.

Their plane, "The Southern Cross" was met east of Chicago by an escort of army planes and guided to Sky Harbor, where Kingsford-Smith paid an aviator's respects to the Hunter brothers in their endurance plane which has broken all records for sustained flight. Then it swung back a couple of miles south to Curtiss Field, where it was landed and placed in a hangar. Mechanics at once began inspecting and refueling it for the flight to the Pacific coast Thursday.

New Phase In Lingle Slaying

CHICAGO, July 2. (P)—The attempted massacre of Jack Zuta and three other gangsters ambushed by gunmen on State street in the loop Tuesday night developed new phases Wednesday in the inquiry into the assassination of Jake Lingle, Tribune reporter whose reputed "unholy alliance" with the underworld brought a bullet in his head and caused police to declare hostilities with hoodlums.

As police scrutinized motives and clues of the State street assault, a grand jury indictment was returned against Frankie Foster, gunman arrested in Los Angeles, accusing him of the slaying.

Modern Teachers Favor Aviation

COLUMBUS, Ohio, July 2. (P)—The modern American school teacher revealed Wednesday, she is an ardent enthusiast of aviation and that the school children within the next year are going to hear a lot about the conquest of the air.

The sessions of the national education association virtually were moved Wednesday afternoon to Port Columbus where hundreds of the teacher delegates took their first rides in airplanes and spent the day looking over some of the newest creations in ships.

Love Note Ends Suit

LOS ANGELES, July 2. (P)—Trial of the \$11,500 love note suit against Harry Langdon, film comedian, ended Wednesday. Superior Judge Blake will announce his decision Monday.

ITALIANS BOOST IMPORT DUTY ON AMERICAN AUTOS

Is New Obstacle In Path of America's Chief Manu- factured Export

TWO THEORIES GIVEN REASON FOR MEASURE

Some Believe Is Retaliation For New Tariff Bill; Home Protection Also

WASHINGTON, July 2. (P)—An obstacle arose in the path of America's chief manufactured export Wednesday while a cabinet officer was praising the new tariff law as one which reduced the disparity in protection between agricultural and industrial products.

Officials refrained from comment upon the Italian decree raising the import duty of automobiles between 110 and 125 per cent pending a report from agents of the commerce department. No official notice of the action had been received.

On capital bill, Senator Vandenberg of Michigan looked upon the action as subject to a double interpretation. He considered it might be either a method of forcing American manufacturers to establish plants abroad or a retaliatory measure.

The law itself was praised in a speech by Secretary Hyde over the radio as distinct gain for agriculture in that it provided increased protection for agricultural products.

The last communication the state department received from the Italian government dealt with agricultural rates. Italy protested against rates on olive oil, canned tomatoes, tomato sauce and lemons.

The Italian market has been growing in importance as a recipient of American light cars. Total American exports of automobiles for 1929 was \$510,000,000 and only \$2,000,000 went to Italy.

The Italian figures, however, were almost treble those of this (Continued on Page Nine)

VET PENSION BILL CONFEREES JAMED

Hope For Agreement To Permit Final Con- gressional Action

WASHINGTON, July 2. (P)—House and senate conferees on the World War veterans pension bill stood at odds Wednesday night on the major differences in the legislation approved by the respective branches.

Hope was held by administration followers on both sides of the capital that an agreement might be reached Thursday in time to permit final congressional action. Standed firmly for the bill designed to meet approval of President Hoover, the house declined Wednesday to accept the senate amendments broadening its provisions to a scope comparable with those in the recently enacted Spanish-American war veterans pension law.

Searchers Find Chisholm Grave

OKLAHOMA CITY, July 2. (P)—The unerring and traditional information in Indian lore has led a searching party to the long sought grave of Jesse Chisholm, pioneer trail driver who followed cattle herds from Texas to Kansas over a route that bears his name to this day.

J. B. Thornburn, curator of the Oklahoma Historical Society, and T. U. Taylor, dean of engineering at the University of Texas, returned to Oklahoma City Wednesday from a visit to the valley of the north Canadian river, near the boundary line between Blaine and Canadian counties where the grave was found and identified. An Indian led the party to the spot where Chisholm was buried. The locality of the grave was known but only the Indian knew the exact spot. Once it was pointed out, identity was established.

Alibi Offered In Galveston Trial

GALVESTON, July 2. (P)—Testimony from defense witnesses that W. S. (Shiloh) Scrivner was at his home on Piner street in Houston at the time the West National bank of Texas City was robbed by two armed men November 1, 1927, was the feature of the third day of his second trial on a robbery charge.

THE WEATHER

Maximum temperature for Paris Wednesday: 90 degrees. Rainfall: .63 inch.

Texas: Partly cloudy Thursday and Friday. Light to fresh southerly winds on the coast.

Oklahoma: Partly cloudy Thursday and Friday.

10 CONTRACTORS TO MAKE REPORTS

Paris Firms Doing Annual Business of \$25,000 In- cluded

The Bureau of the Census reported Wednesday that 19 contractors and sub-contractors of Paris had been sent report-blanks to fill out in connection with the census of the construction industry which is now being taken as part of the census of distribution.

This census in its present stages, is limited to those contractors whose gross construction work in 1929 amounted to at least \$25,000, and undoubtedly questionnaires were sent to contractors who did not do that much business last year and some contractors probably were missed; all errors of this sort however, will be eliminated by the personal canvass now under way. If those who have not received questionnaires for their construction business will get in touch with the census supervisor, the work will be greatly facilitated, and the report for Paris will be available sooner.

The bureau of the census also reports that questionnaires were sent to 4962 contractors in Texas, while a total of 175,000 questionnaires were sent out for the entire Nation.

The construction census canvass was conducted entirely by mail until recently, when, in all cities over 10,000 population, it was turned over to the supervisors and enumerators for completion through personal visits.

Both general and subcontracting work are included in the census. The general contracting work includes such construction as building, highway, bridge and culvert, street paving, sewer, gas, water and conduit, dam and reservoir, waterworks, dredging, river and harbor, levees, railroads, foundation power plants, and various other work, while subcontracting includes carpentering, concreting, electrical, elevator constructing, heating and piping, mason, painting and decorating, glass and glazing, pipe covering, plastering, plumbing, roofing, sheet metal work, steel erection, stone work, marble and tiling, wrecking, excavating, ornamental iron and various other similar work.

For the purposes of this census, repair work and remodeling work are considered on the same basis as new construction, because such work utilizes construction materials and construction labor. Also all construction work whether performed by contract or not is included.

BLOSSOM

BLOSSOM, July 2.—Increased interest and attendance, is being shown in the revival conducted by the Rev. W. C. Bennett of Texarkana. There have been several professions made and additions to the church.

Mrs. A. Wemple is visiting in Midland.

B. B. Fort of McCombs, who was called here by the illness of his

Traffic Cop 'Steps On It' and Gets 'Fortune' Ticket

The supervisor of traffic in Paris may not believe in fortune telling, but he drew a hot ticket when he stepped on one of these weighing machines that tell not only the avoirdupois displacement, but the true measure of the man.

Officer Gus Cochran read this Wednesday on the little ticket that said he weighs 179 pounds, minus artillery, but clothed and in his right mind. "You are persistent, brave, not easily turned aside from your chosen course, quite reserved and can live much within yourself."

How's that for the requisites of an upholder of law and order on Paris thoroughfares?

daughter, Mary Kathryn, has returned home.

Mrs. Mary Waters, of Detroit, is here visiting.

Mr. and Mrs. F. N. Blincoe of Commerce who lived here many years have moved to Paris.

Little Mary Dean Oliver, of Deport, who spent last week here has returned home.

Miss Aline Cross of Deport, is here visiting.

Mrs. Sam Davis visited in Paris Tuesday.

Miss Berta Patton of Paris spent Tuesday night here.

MEDILL

MEDILL, July 2.—The trustees of Medill school have paid for the building and did some work inside. Mrs. Bessie Williams and children are visiting at Banty, Okla.

Mr. and Mrs. Roy Nettleton of Paris visited in Medill Sunday.

The revival meeting starts the third Sunday in July. The Rev. Mr. Gill will hold the meeting.

Mrs. Frank Jones was taken to the Sanitarium of Paris.

J. C. Click and family visited Mr. and Mrs. Jim Click at Faught Sunday.

Austin Kitchen of Novice who is in the sanitarium of Paris is improving.

Mr. and Mrs. Roy Segal of Chicago spent the week end here.

Robbie King who had sunstroke Monday died early Tuesday morning. Burial services were at Pee Dee cemetery.

Hugh Jones has his steam mill on his home place in operation.

Mrs. Rube Bradley of Novice has been ill.

Van McDougal of Arthur City is visiting here.

The picnic for July 2 to 4 is expected to give quite a lot of work to the community.

The dance hall at Fodge's store has had a good crowd and good music the past few dances and is expected that good music will be had during the picnic.

TULSA.—Oil production in the United States increased an average of 30,471 barrels daily in the week ending June 28, the Oil and Gas Journal reported Monday.

Local Hotels Given Census Report Blanks

The bureau of the census reports that 6 local hotels have been sent report blanks to fill out in connection with the census of hotels, now being taken as part of the new census of distribution. Secretary R. F. Johnson of the Lamar county Chamber of Commerce announced Wednesday.

This census in its present stages is limited to those hotels which have more than 25 rooms and are doing a strictly hotel business, either of a transient or permanent nature.

Undoubtedly questionnaires were sent to hotels and institutions not included in the census, and others probably were missed, but all errors of this sort, will be eliminated by the personal canvass now under way.

Heal Those Sore Gums

Even after pyorrhea has affected your stomach, kidneys and your general health, Leto's Pyorrhea Remedy, used as directed, can save you. Dentists recommend it. Drugists return money if it fails. **Pat-tee Drug Store.—Adv.**

It's True —

GASOLENE can GUM-UP YOUR VALVES

"What's the matter?" asked the motorist. "Sticky valves," answered the repair man. "What's the reason?" was the next question.

We'll tell you—*gum* in gasoline!

Cities Service experts were among the first to discover the harmful effects of excessive gum in gasoline — and to provide a remedy.

The remedy is Koolmotor Gasolene—a gas that is free from harmful gum. Extra care and extra refining—known as the Cities Service *mini-gum process*—have reduced the gum content in Koolmotor Gasolene to a harmless minimum.

This superior motor fuel is powerful and clean burning. It is eager to go — full of speed — provides mile after mile of smooth, knock-free performance. It keeps your valves clean, free moving—it guards against loss of compression and power.

Don't burden your motor with sticky, gummy, clogging gasolene. Insist on Koolmotor Gasolene, the *original* high test, anti-knock green gas. Then your motor will be free to do its best.

THE NEW TEXACO MOTOR OIL

LONGER-LASTING, "CRACK-PROOF"

THE Texas Company again demonstrates its leadership in the petroleum field with the introduction of a vastly superior, new product—a motor oil that lasts longer—that is crack-proof—a motor oil that meets exactly every requirement of the high speed automobile engine of today! This new oil revolutionizes lubrication values as completely as the *new* and *better* Texaco Gasoline, the original "dry" gas, revolutionized motor fuels in the Spring of 1926.

An Oil Without Precedent

There have been oils that gave remarkable mileage. There have been oils that flowed freely at zero. There have been oils that kept your engine completely free of wax and carbon troubles. But—never until now have *all* these advantages been

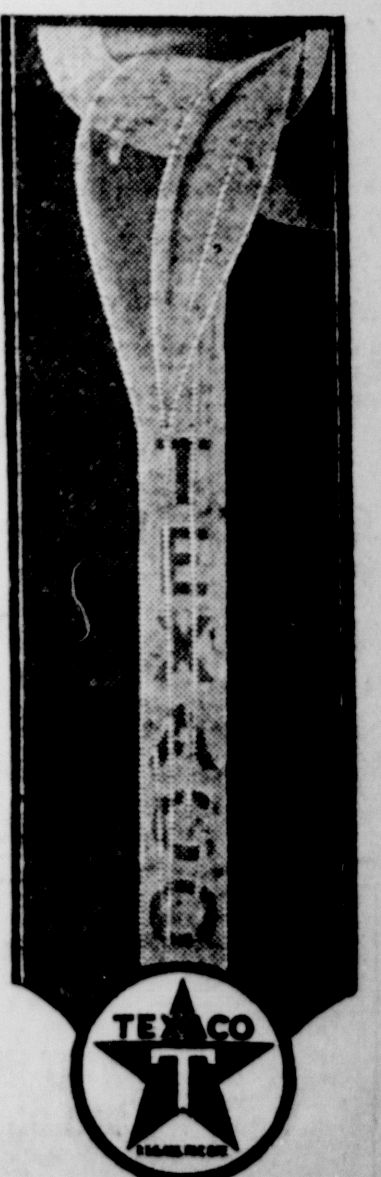

combined in any one single lubricant. That motor oil is ready for you today. It is the new Texaco—longer-lasting and crack-proof. Road tests—laboratory tests have proved it.

Available in all our 48 States

Fill your crankcase with this new crack-proof motor oil today. It will more than pay you, not only in greater value for your lubrication dollar but for your car dollar as well. It is manufactured in five grades: C, D, E, F, and G, corresponding in body to Society of Automotive Engineers (S. A. E.) viscosity ratings. 30¢ a quart everywhere (35¢ for grade G).

THE TEXAS COMPANY

Refiners of a complete line of Texaco Petroleum Products including Gasoline, Motor Oil, Industrial Lubricants, Railroad and Marine Lubricants, Farm Lubricants, Road Asphalts and Asphalt Roofing.

LAMAR TRIPPERS ATTEND ROXTON COMMUNITY CLUB

Tell Facts Learned About Poultry While On Recent Tour

Four of the Lamar county party who made the recent tour to Arkansas and Missouri, sponsored by the Lamar county chamber of commerce, attended the regular meeting of the Roxton community club Tuesday night. Each of them made a short talk on the things learned while on the trip.

Jim Maxwell of Roxton presided at the meeting and introduced the speakers.

Dr. O. E. Hayes, chairman of the poultry division of the Lamar county chamber of commerce, said that there were too many breeds of chickens in Lamar county. He said that only two breeds were needed, an egg-producing breed and a dual purpose breed. In discussing the poultry industry in the sections visited by the Lamar county party, Dr. Hayes said that the average farm flock contained only about 100 to 200 birds. He said that at one place visited, four families sold 7,200 broilers for \$4,000.

Edgar Little, in describing the methods used in handling poultry, said that one man met by the party said that he sold all his hens April 1. His young hens were confined August 1, and were laying by September 1.

Ray Hunt said that bankers informed him that farmers in the poultry growing section do not borrow money. He said that they always had something to sell, cows, chickens, fruit or feed.

A. L. Edmiston, county agent, spoke briefly on the purpose of the trip, which he said was to acquaint the members of the party with up-to-date methods of growing, feeding and marketing poultry, as is practiced in the section around Springfield, Mo.

Defer Chicota Quarterly Meet

The third quarterly conference for the Methodist churches of the Chicota circuit has been postponed until Wednesday, July 23, due to the fact that the Fourth of July holiday comes so near the conference date. The preaching service as previously announced for Sunday is not affected by this change, and the Rev. Ira C. Kiker, presiding elder of the Paris district will preach at 11 o'clock on that date, only the Saturday meetings being deferred.

Chicota is one of the largest appointments in the Paris district in the matter of charges and territory covered. The Rev. W. J. Wilson is the pastor and preaches at the following communities: Belk, Post Oak, Boggy Bend, Caviness, Chicota, Mayes Prairie, Pages' Chapel, Wright's Chapel and Tigertown. There are about fifty official members of the quarterly conference.

A revival meeting at Chicota is announced to begin on the third Sunday in July, with the Rev. H. V. Watts of Clarksville assisting. The quarterly conference announced for July 23, will in no way interfere with the regular revival services in progress at that time. It is planned to have the sermon preached by Mr. Watts followed by dinner on the ground with the business session of the conference at 2 o'clock.

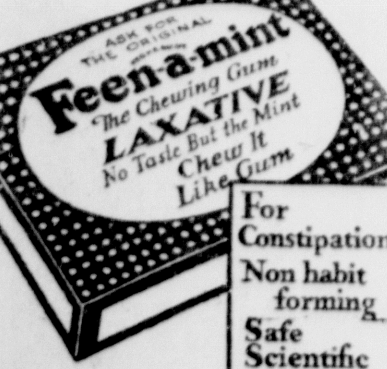

George Campbell Dead. Former Paris Resident

George G. Campbell, 63, was found dead in his garage in Dallas Tuesday morning, hanging from a rafter by a window cord about his neck. Justice Fly returned a verdict of death self-inflicted.

The story in the Dallas News states that Mr. Campbell had been in bad health several months, and that he is survived by his wife and two married daughters.

George Campbell came to Paris from Illinois in 1900 to work for Rodgers-Wad. In their undertaking department, and lived here until 1907 when he went to Dallas and worked for undertaking firms there. He was a lover of outdoor sports and had many friends in Paris. Bishop Harry Moore conducted the funeral and he was buried under auspices of the Elks Wednesday afternoon.

DEVOL.—A tornado struck here Tuesday destroying three buildings, injuring three persons. It cut a swath about a mile wide blowing down 17 high tension power lines.

Believe Spark Sets Fire To Prison Factory

FRANKFORT, Ky., July 2. (P)—Fire swept the Frankfort chair company building in the stockade of the state reformatory here Wednesday afternoon, causing a loss estimated at approximately \$250,000. Other buildings and equipment also were damaged. The loss largely was covered by insurance.

The 234 prisoners employed by the chair factory, as well as 533 prisoners employed in two other buildings in the stockade, marched in orderly fashion into the stone-walled reformatory.

The reformatory fire department and scores of other prisoners aided the Frankfort fire department in battling the blaze as the majority of the 2,354 prisoners in the reformatory sat around the court laughing and joking.

The fire started in a shed of the chair factory where sawdust was stored. It was believed a spark from a passing train ignited the sawdust.

"ONCE I was worried. Meal-time was getting on my nerves. I prepared many appetizing dishes, but John simply would not eat—just 'minced' at his food. Perhaps sometimes a little grouch. I began to fear he was 'slipping.' What was I to do? Love, home, happiness, business success—all depended upon an improvement in his condition. The blood- tonic idea suggested itself to me. My Druggist recommended S.S.S. He told me that S.S.S. was a great blood tonic; that it had been successful for over 100 years; that it was made from strictly fresh vegetable drugs and was beneficial to the most delicate system. Also that it would build up the blood and improve the processes by which the body is nourished. I brought home a large size bottle. John agreed to try it. Well, in just a few days I could see the difference. His improvement has been so rapid he is going to take several more bottles, and not only that, but he is now telling his friends to take S.S.S."

It is a known fact that when a man's system gets "run-down," he hasn't the resistance to ward off diseases. Loss of appetite is only a symptom. General weakness pervades the entire body. There is no desire to work or play. It is dangerous to let the red-blood-count remain below normal.

S.S.S. is daily helping people to regain their strength. Thousands of users have testified to its benefits in unsolicited letters of gratitude. It promotes a keen appetite, gives vitality to the body, clears the skin and wards off diseases. All Drug Stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

MALARIA REPORT FOR COUNTY GIVEN

643 Cases Reported During 1929; Four Fatalities Are Listed

Reports received Wednesday from the State Health Department show that during 1929, 643 cases of malaria were reported from Lamar county. Included in these were four fatalities attributed to malaria. The East Texas chamber of commerce is sponsoring an anti-malaria campaign, and says that it is a preventable disease. State health officials and prominent physicians throughout the state say that the mosquito is the only source of malaria germs. In the anti-malaria campaign, stress is placed on the importance of destroying the breeding places of the mosquito. It has been proven that mosquitoes will often breed in discarded cans, pails, and in stagnant pools of water. No can or pail should ever be thrown away until it has been punctured so that it will not hold water. All pools should be drained where practicable. If it is not practicable to drain the pools, they should be oiled regularly. Treatment with oil will destroy the young mosquitoes.

Malaria is taking a large toll from Lamar county each year. There is considerable monetary loss through physician's bills, as well as bills for drugs, but the greatest loss is that of health. Much of the illness which comes to Lamar county people, it is said, can be traced to malarial infection. It is urged that all citizens of the county do everything possible to destroy mosquitoes and help prevent the spread of malaria.

F.W.C.S. Disbands For Two Months

The Federation of Women's Church Societies, at its regular July meeting, decided to disband with the August and September sessions, and in view of this, made these advance appointments for holding services at the county farm: July, First Congregational; August, Episcopal; September, Methodist Protestant.

The federation also voted to withdraw its contribution to the Edith Musselman day nursery milk fund, as this is being cared for by the individual church societies of the city.

The meeting was held at the Methodist Protestant church, and the program was arranged by the women of Central Presbyterian church with Mrs. H. F. Hancock as chairman.

The president, Mrs. T. L. Beauchamp, appointed Meses. H. F. Hancock, W. C. McDowell and M. O. Bozeman as a committee to revise the constitution and by-laws.

Miss Sallie Gibson reported on the distribution of literature and asked assistance in this. The First Methodist church representatives volunteered to supply the Texas and Pacific railroad station. Miss Gibson also suggested that literature might be supplied at the monthly farmers sales day auction place.

The devotional service by Mrs. W. C. Clark on "Love" was based

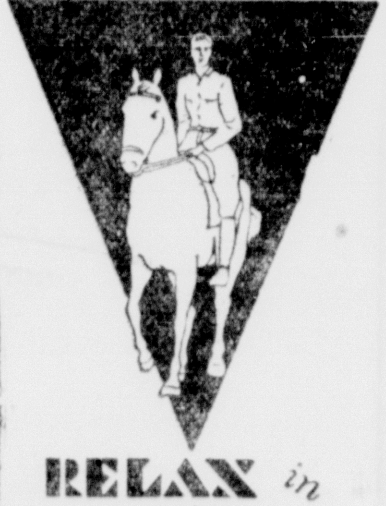

stored. It was believed a spark from a passing train ignited the sawdust.

Floyd Withdraws As Candidate For State Representative

Former Senator Charles R. Floyd whose name was filed by petition as a candidate for state representative from Lamar county, announced Wednesday that he declines to make the race for the office. He also filed a request with the secretary of the county democratic executive committee that his name be left off the ticket for the July primary.

The former senator gave as his reason for declining to make the race, the fact that his present work occupied all his time, and that he could not make the race without relinquishing his present position. However, Mr. Floyd requested the News to express his appreciation for the honor shown him by those who filed his name for a place on the ballot.

Mrs. Hoyle Barr and son, Hoyle Jr., will leave overland Saturday for a three weeks' trip to California.

CHICKEN BARBECUE BY WRIGHT CLASS

A delightful chicken barbecue was enjoyed by members of the Wright Bible class and members of their families Tuesday evening at Lake Crook, about 150 persons attending.

The barbecue was prepared by

Sam Fuqua, assisted by J. W. Harris, and those attending brought salad, pies and cakes for the rest of the supper.

Brief talks were made by several members, and in addition to entertainment by a negro musician, radio music was furnished through courtesy of the Hall Music and Electric company.

Mrs. R. A. Landers and son, Franklin of Jacksonville, Texas, are here visiting relatives.

IT'S A PITY TO BE FAT!

"Coming events cast their shadows before"

When tempted to over-indulge "Reach for a Lucky instead"

Be moderate—be moderate in all things, even in smoking. Avoid that future shadow* by avoiding over-indulgence, if you would maintain that modern, ever-youthful figure. "Reach for a Lucky instead."

Lucky Strike, the finest Cigarette you ever smoked, made of the finest tobacco—The Cream of the Crop—"IT'S TOASTED." Lucky Strike has an extra, secret heating process. Everyone knows that heat purifies and so 20,679 physicians say that Luckies are less irritating to your throat.

"It's toasted"

Your Throat Protection—against irritation—against cough

*In his famous book entitled "Foods For the Fat," Dr. Yorke-Davies gives this advice: "Any system for reducing fat will be of no avail if the patient persists in eating between meals." We do not represent that smoking Lucky Strike Cigarettes will bring modern figures or cause the reduction of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for a Lucky instead," you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.

BRIEFS

About Town

D. A. Ritchie, of Ely-Walker company, arrived Wednesday from St. Louis, on business.

Pat Neff will arrive from Dallas Thursday night, to speak here on Friday at the Rotary club's Fourth of July picnic.

Cook & Coker have added a new Ford delivery truck to their present fleet, delivery of which was made Wednesday.

Alberta Gray, negro, was arrested Wednesday on a charge of affray with another negro woman. Warrants have been issued for the other battler.

John Washington Handley of Hugo and Rench Ridd, giving his address as Georgia, were sent to Dallas Tuesday to undergo an examination for government service in the hospital corps.

Mr. and Mrs. Peyton Ellison, former Paris citizens, who have been visiting in the city as guests of Mr. and Mrs. Clarence Griffith, have returned to their home at Dallas.

Mr. and Mrs. Blake Lee and Mr. and Mrs. Ernest George and son, Smith Lee George, left Wednesday overland for a visit to Carlsbad, N. M. They expect to be gone about ten days.

Owing to the fact that the Paris municipal band will be playing at the Fourth of July celebration there will be no band concert at Wade park Friday night.

Jim Coker and family will move into their handsome new home in Stillrose Thursday. The new home is of brick veneer, and one of the prettiest residences in that addition.

Chandler Fennel, head of the tire department of the Paris Transfer & Storage Co., is carrying his right arm in a sling. A balky Ford kicked him Tuesday afternoon, but fortunately no bones were broken.

Paris junior college will have a week end holiday from Thursday afternoon to Monday morning, in observance of the Fourth of July. The enrollment now numbers 128 students for the summer term. Dean J. R. McLemore says.

Workmen are tearing out the brick wall between the two buildings owned by J. D. House on Clarksville street, which will be occupied by J. D. House, Jr., who will install a hardware stock in the building about September 1.

Miss Minnie Rushing has been transferred from the art needlework department at Perkins Bros. store to the pattern counter, replacing Miss Emma Lloyd Walker, who resigned her position with the store to be married to Ray Walters.

Dr. and Mrs. F. W. Hill will leave Friday morning to visit their son, George B. Hill and wife at New Rochelle, N. Y. Dr. Hill also taking some post graduate work in the dental school of the University of New York. They will be gone about a month.

The L. O. O. F. lodge in the jurisdiction of Deputy Gill Brown, consisting of Wilsey No. 21, Lamar No. 22, Minter No. 37 and Glory No. 23, and Paris Rebekah No. 24 and Broadway Rebekah lodge will have a public installation of officers at the Laman fair grounds on Monday, July 14.

Arthur Hooks and wife of Houston will spend the Fourth of July in Paris as guests of Mrs. J. J. Cunningham, aunt of Mr. Hooks. He was born and reared in this city, but has been a resident of Houston for a number of years, where he is connected with Anderson-Clayton, a well known cotton firm.

W. H. McFadden of Glory, well known farmer, brought six pints of honey to the Morning News office Wednesday to be distributed among the force. This honey came from bees working on a clover patch on his farm, a picture of which appeared in the Morning News some time ago. He had two pints of honey which he disposed of in the city.

Medical Society Resolution On Dr. Gooch Death

At a recent meeting of the Lamar County Medical Society, the following resolution was passed in regard to the death of Dr. Lewis Melvin Gooch, member of the society, and former health officer of the city of Paris:

"It is with deep feeling and with a sense of combined personal and corporate loss that the Lamar County Medical Society records the entering into eternal life of their late member and associate, Dr. Lewis Melvin Gooch, April 10, 1930.

"His personal connection with our society dates from the beginning of the practice of his profession, the years of which were spent in their entirety among us.

"As a member of the Lamar County Medical Society, the Sanitarium of Paris staff, as public health officer of the city of Paris, and as a practitioner, he adorned the profession. His personal qualities of faithfulness, patience and tact endeared him to hundreds of associates and friends. His hopefulness and courage in the last days of his life will be to all of us a glorious example of steadfastness and patient endurance. The unselfish service which he gave to the cause of public health will prove to be even to older members of the profession, an inspiration.

"As individuals, and as a corporate body, we extend to his bereaved wife and children and to his father and mother, our deepest and most sincere sympathy.

"Therefore, be it resolved that this expression of our love, gratitude and grief, be spread upon our minutes, and that copies be sent to his wife, his father and mother and to the public press."

Committee,
O. R. O'Neill
E. Goolsby
R. L. Lewis.

Then I was with him, as one brought up with
him; and I was daily his delight, rejoicing always
before him:

Rejoicing in the habitable part of his earth; and
my delights were with the sons of men.—Proverbs
viii, 20, 21.

SLAP THE GLAMOR OUT

THE slap in the face that Sheriff Covington of Jef-
ferson county gave a would-be mob leader,
which resulted in the dispersal of the gang that
had kept the nerve of the officer on edge the bet-
ter part of two days is worthy of emulation.

It was far more effective than would have been
a shot from the officer's pistol. In that it had the
desired effect with no chance for complaint that
the officer was killing people for no good cause.

If this sort of treatment was followed by the
law in handling bootleggers and the other cheap
lawbreakers who clutter up our courts there would
be less congestion of the dockets and very probably
a decrease in that class of law-breaking. For no
man who has been slapped by an officer with the
flat of his hand can long claim or keep the glamor
or that now attaches to the small-fry gangster and
trouble-breeder, who has a following gained by
his flouting of the law and the almost certain
escape from payment of any penalty.

Instead of having them put in jail and maybe
(very remotely maybe) sent to the penitentiary, why
not let the sheriff cuff them on the ear publicly, or
perhaps lay on a lash across their backs where
the gang can see it done, and not only save time
and expense but most likely knock the props from
under the would-be hero of the underworld.

It might be worth trying.

GRADE CROSSING PROBLEM

IN spite of the fact that we have been spending
more than \$50,000,000 a year to eliminate railroad
grade crossings, they are increasing in number due
to new road construction according to reports pre-
sented to the National Conference on Street and
Highway Safety.

It is stated that the cost of grade separation is
too great for the problem to be solved by this
method and it is suggested that uniform warning
signs, protective signal devices and education of us-
ers of the highway provide most practicable reme-
dies.

At every grade crossing is some sort of sign or
warning on the railroad right-of-way. It should be
a simple matter for states and the railroads to
agree on an outstanding type of sign or signal de-
vice which would be noticed by even the most neg-
ligent of drivers and place it far enough from the
crossing to give adequate time for cautious ap-
proach.

The desire to beat the railroad train to the
crossing is responsible for the loss of thousands of
lives. Plain ordinary carelessness and incompetence
are responsible for thousands more. The most tell-
ing commentary of all is found in the fact that a
large part of grade crossing accidents result, not
when trains strike motor cars, but when motor cars
strike trains.

Recently, in a southern state, the engineer of a
locomotive saw a car stalled on the track ahead of
him with its occupants frantically trying to start
it. He jammed on the brakes and the locomotive
jumped the track. The engineer was killed. Careless
motorists may have the right to risk their own lives
but when they endanger the lives of others it is time
to call a halt.

TAX EQUALITY

APPEARANCE at recent meetings of the city
council of persons asking adjustment of taxes
based upon overights or errors, or neglect in mak-
ing out the tax rolls gives further proof, if any be
needed that the assessing of taxes in Paris is far
from the basis of equality and universality required
by the constitution of Texas and the charter of the
city of Paris.

The practically invariable plea of the taxpayer
who appears before the boards or the council is that
he is willing to pay in proportion to others, but
that he is "out of line" and he demands readjust-
ment which can be given generally only by stretch-
ing the provisions of the charter almost to the
breaking point. There will always be property out
of line so long as the haphazard method of assess-
ment is followed, and values fixed by or guessed at
by property owners go on the books as final.

The owners of property should no more be al-
lowed to set the value of their property for taxation
than the customers of a store should be allowed to
fix the price at which goods are sold, for each in-
dividual has a different idea of value and a differ-
ent basis for comparison. Tax assessing should be
done by a board competent to pass on property of
every character, to fix values that would stand up
not only by comparison but in the courts if neces-
sary, and such valuation would guarantee that parity
of taxation that is contemplated by the constitution.

About the the only thing we can think about
which to boast is the fact that we are positive we
never started a forest fire.—Haverhill Evening Ga-
zette.

Japan has arranged to furnish instructors for
the Chinese national army and we suppose Russia
will regard that as an unfriendly act.—Des Moines

Every day we are surprised that all the Changs
have not yet been killed off in China.—Janesville
Gazette.

Who's Who—Timely Views

PROHIBITION—FOR OVER 25 YEARS—
DISCUSSEDBy Clyde M. Reed
Governor of Kansas

IN regard to crimes of violence and general dis-
regard of law, the United States is the scandal of
the civilized world.

In no other country that claims to be on our
plane of civilization are murders and other crimes
of violence so numerous or is there so general a
tendency to disregard laws which we enact. This
situation must challenge the attention of every
thoughtful citizen of the country.

Just now attention is being centered on the
enforcement of the prohibition laws. We have had
more than ten years of national prohibition. The
federal government is tightening up its machinery
for the enforcement of these laws.

In Kansas this machinery is becoming effec-
tive. Due to an extraordinary condition in the United
States district court for Kansas, existing for many
years until recently, the burden of enforcing the
law devolved almost entirely upon the state.

Kansas occupies a peculiar position with regard
to prohibition. We have had a constitutional amend-
ment prohibiting the liquor traffic for more con-
secutive years than any other state. We so amended
our constitution in 1880 and the first legislative
action to make this amendment effective was taken
in 1881.

Kansas has had nearly 50 years of constitu-
tional prohibition. For that reason it has been regard-
ed as the leader in this class of moral and economic
legislation. With us it is a settled policy from which
the state will never depart regardless of what any
other state or the nation may do.

Following the adoption of the constitutional
amendment in Kansas it required a generation of
experience before we learned how effectively to
enforce the prohibitory laws. The United States will
have the same experience.

In Kansas one legislature after another tight-
ened up the law enforcement machinery based upon
experience. As fast as we found a weak spot in our
prohibition laws we filled the hole.

At the end of 25 years we had found out how
effectively to stop the liquor traffic in this state.
The United States has had only 10 years' experi-
ence in dealing with national prohibition.

WHAT OTHERS SAY

THE BOND PLAN

From the Wichita Falls Times.

A meeting of opponents of the state-wide road
bond plan last week, speakers declared that the
plan should not be made an issue in the primary
campaign. In that, they are eminently correct, so
much so that it is difficult to understand why they
should have held their meeting at a time when pub-
lic interest is centered on the campaign.

Most of the gubernatorial candidates are op-
posed to the bond issue, and their utterances on the
subject make it easy for the voter, to forget that
the next governor, whoever he may be won't have
much to say on the bond question, one way or the
other, and that the voters themselves will have a full
opportunity to pass directly on the plan, at the polls.
Regardless of how strongly the legislature and the
governor favor the plan, the voters have the real
say-so. The opponent of the road plan who lets that
question dominate his choice for governor will be
disregarding the fact that nobody can force the
bond issue onto the public if the public doesn't want
it, and that no candidate is entitled to ride into of-
fice on anti-bond sentiment.

SEE AMERICA FIRST

From the Bonham Favorite:

WE are too apt to overlook the beauties all around
us. There are people going to Europe this
summer and next summer, and they went last sum-
mer, who never saw the Mammoth Cave in Ken-
tucky, the immense cavern in New Mexico, nor Ni-
agara Falls; and they have no idea just what the
Grand Canyon begins to look like. People who have
seen these things and have also visited in Europe,
declare that nothing in the form of scenery in Eng-
land nor on the continent can compare with them;
and as for ruins the homes of the cliff dwellers in
this country are just about as old as the common
run of ruins in Europe. We as human beings laugh
at the cow trying to get out of the pasture where
the grass is better, to get to some sprig on the
outside, which looks better—from a distance. It be-
gins to look as if the cow has the laugh on us.

CART BEFORE HORSE

From the Deport Times:

ONE of these Deport bankers is evidently getting
tight. He called our attention to a head line
in the Dallas News Monday that read: "Way is
Paved for Big Dam Appropriation." He insisted that

"Big" and "Dam" had been inadvertently trans-
posed.

Grover Whalen, New York's police commis-
sioner, put his jaw-walking rules into effect and then
walked out of office the next day.—Adrian Daily
Telegram.

"Come fly with me" is no longer a mere line
for a sentimental ballad when Colonel and Mrs.
Lindbergh decide to cut down another air record.
—Washington Evening Star.

Pretty soon, the progressive restaurants will be
establishing vest pocket golf courses where their
patrons can practice putting between the soup and
fish.—Fort Wayne News-Sentinel.

Now perhaps motorists will be careful not to
drive their cars into railroad trains, since an Illi-
nois judge has held a truck driver financially re-
sponsible for wrecking a train.—Haverhill Gazette.

Texas plan of paying a \$5000 reward for every
bank robber killed in the act seems to be succeeding
very well in inducing some men to induce other
men to rob banks.—Cleveland News.

An eminent dermatologist says whiskers grow
just as fast in cold weather as in hot. This, no
doubt, accounts for the many long beards among
Eskimos.—Bangor Daily Commercial.

WHAT WILL THE MORROW BRING?

Guiding Your Child

JULIE'S STUTTER
By Mrs. Agnes Lyne

Julie's stuttering was painful to
hear. She was still too young to
benefit by corrective speech work
and everyone accepted her diffi-
culty with patience. Mother always
listened to the very end of Julie's
tortured utterances and always an-
swered them sweetly.

In the evenings when daddy
came home he too was the soul of
patience. No matter how long a
story Julie elected to tell him, his
attention never wavered.

Indeed, sister Helen could
scarcely put in so much as a word
while her father listened to Julie
with that particular tenderness
which parents so often feel for the
handicapped child.

Then one day father had to go
away on a business trip. He was
gone a month. During his absence
the one servant, having been dis-
missed, and mother being unusu-
ally busy with housekeeping, Julie
received much less than her accus-
tomed quota of attention.

Mother no longer had time to
listen. For the first time in her
life, Julie found that she could not
hold the floor.

By the time that father came
back, Julie was almost cured. She
had learned that unless she spoke
quickly and clearly people might
not wait to hear what she had to
say.

In Julie's case, stuttering had
been just one of those dodges that
children use as attention-getting
devices. She had learned to culti-
vate the habit of her babyhood in
order to concentrate attention upon
herself.

Stuttering is not, of course, al-
ways thus conditioned but while
we need to be patient with the
stutterer we must guard against his
getting particular satisfaction from
his defect.

Unless we are aware of this
danger, the stutterer may remain
long after it has become only a
source of conscious embarrassment
and misery to the afflicted individ-
ual.

A NEW YORKER AT LARGE

By Mark Barron.

NEW YORK. (AP)—Some of the
politicians in our town have to be
shown.

What they may or may not think
on the tariff or prohibition doesn't
necessarily have anything to do
with how many votes they get. It
depends largely on the impression
they make on ward leaders.

Such a situation has been com-
plicated somewhat since women
have taken over jobs of leading
voters in the last few years. In
the good old days a candidate
merely had to be a half-fellow
well-net and he could win over the
"bosses." Now he must consider
the feminine viewpoint.

There is the case of a young man
from the Bronx who was a candi-
date for a minor municipal office.
A few days before the final rally
of political "bosses" he married a
very lovely girl. In fact, his wife
was such a charming beauty that
it set him thinking.

It so happened that the feminine
members of the "bosses" clique
were not especially young nor
charming. The young candidate
decided that his beautiful wife
might unleash thoughts of jealousy
and envy in them.

So, on the day of the big rally,
he left his wife at home and ap-
peared at it with quite another wo-
man than Mrs. Candidate. He in-
troduced her as his sister-in-law,
making the excuse that his wife
was kept home by illness.

The "sister-in-law" who would
never be accused of being a beauty,
did an effective job of winning
over the feminine "bosses" to the
cause of the young candidate.

It is not surprising that she did,
for she was a character actress
hired for the occasion from a the-
atrical agency.

The Short Of It.

Barad Veiller is a rural fellow
who has his ups and downs. After
he wrote "Within the Law" he sold
his rights in it for \$500. He then
retired to his Connecticut farm and
wrote "The Trial of Mary Du-
gan," which made a million dollars
for himself.

He is extremely short in stature
and this diminutive size often
leads into embarrassing circum-
stances. A movie producer sent
for him to write scenarios and
when he arrived at the office to
sign his contract he ran into a
group of midgets. Not recognizing
Veiller, the producer thought him
one of the midgets and tried to

The Grab Bag

Who am I? In what capacity am
I best known? With what national
society have I been identified?

What French engineer planned the
city of Washington?

How long did Queen Victoria re-
gned England?

"For the wages of sin is death,
but the gift of God is eternal life
through Jesus Christ our Lord."
Where is this passage found in the
Bible?

Answers to Forgoing Questions.

1. David S. Muzzey, as a histori-
an; Ethical Culture.
2. Major Pierre l'Enfant.
3. Sixty-three years.
4. Romans vi, 23.

The return of Rear Admiral
Byrd repeated an incident in re:
the contents of front pages. Byrd's
return overshadowed in news in-
terest the story of two mysterious
murders on Long Island.

The same thing happened two
years ago when Lindbergh's flight
pushed the Snyder-Gray murder
case from the front pages.

I have been looking over with
much interest some copies of the
old newspaper published for more
than twenty years in Clarksville
by Col. Charles DeMorse, The Stand-
ard, originally called the Northern
Standard. They range in date
from 1847 to 1866, and are owned
by Mrs. Fannie Williams, who "sal-
vaged" them when the building
that housed the newspaper was
torn down several years ago and
the files of the paper were scatter-
ed to the winds. It is a pity, for
much of the early history of Texas,
and especially of this section, that
was never preserved otherwise, was
contained in those old papers.

Much of the reading matter is
devoted to political affairs, and the
earlier numbers have much con-
cerning the war with Mexico, then
in progress. The paper carries the
name of Geo. T. Wood of Polk
county as a candidate for govern-
or, he being supported by the edi-
tor, and a list of candidates for
the state senate and legislature to
be elected in 1847.

There is an advertisement of
Isaiah W. Wells, who announces
that he is (in August, 1847) open-
ing at Pine Bluffs a stock of gen-
eral merchandise and asserts that
no store in the country can or will
sell goods cheaper. He mentions
especially 100 ounces of French
and American quinine for sale
cheap for cash. Quinine was a
very necessary drug in those days
when malaria was universally
prevalent. Also Mr. Wells says
that he will accept on consignment

and make liberal advances on cot-
ton, beeswax, gum receipts, etc.

When I came to Paris in 1878
Mr. Wells was keeping a confection-
ery and ice cream parlor at the
southwest corner of South
Main and Kaufman streets, assist-
ed by his two sons. I do not know
when he moved from Pine Bluffs
where I think was on Red river
near the Wright plantation. He
had a pretty home in Paris on
South Main street, with two of the
first magnolia trees that I ever
saw, in his front yard. These trees
burned in the fire of 1916. I re-
member correctly.

Mr. Wells was prominent in the
Odd Fellows lodge here, a charter
member, I believe, and in his later
years served a term as postmaster
under President Arthur.
I shall take pleasure in glean-
ing from these old papers from time
to time other items that may be
of interest to the present-day gen-
eration.

DIET and HEALTH

BY LULU HUNT PETERS, M. D.

GOING TO the beach to cele-
brate the Fourth? All going in
swimming? Suppose one of
your party should be drawn out
of the water half-drowned. Would
you know what
to do to save his
life? How un-
happy you'd be
all your life if
you didn't and
through your ig-
norance lost a
loved one. I am
going to give you
the best method
of resuscitation
and this applies
not only to
drowning but to
heaving a very
electric shocks or
asphyxiation by gas. Practice it im-
mediately after you read this ar-
ticle. Practice it three or four
times.

Lulu Hunt
Peters, M. D.

**Prone Pressure Method of
Resuscitation**

1. Quickly examine the mouth
and remove anything that is re-
movable, false teeth, tobacco,
chewing gum, etc.

2. Lay the patient on his stom-
ach with both arms extended over
his head. Turn his face to one side
so that his nose and mouth are
free for breathing.

3. Kneel beside the patient over
his hips.

4. Place the palms of your hands
on the small of his back so that
the tips of your fingers are just
out of sight around his side, with
the little finger just touching the
last rib. Hold your arms tight.

5. Swing the weight of your
body forward on the patient, keep-
ing your arms stiff while you count
one two—about the time of a second
a count.

6. While counting "three" re-
turn to the upright position, re-
moving your weight and pressure
from the patient, but do not re-
move your hands. Rest long
enough to count "four, five."

Repeat these procedures, the
swinging back and forward, 15 to
25 times a minute, making a com-
plete respiration in four or five
seconds. You can time this by
two" breathe in. While you are
going forward, counting "one.

two," breathe in. While you are
coming back, count, "three, four,
five," and breathe out. (In any
form of artificial respiration, a
point to remember is to make the
movements to restore the breath-
ing no more rapidly than the
normal breathing, which is from
12 to 15 times a minute. In the
zeal to revive, there may be the
impulse to make the movements
too rapidly.)

As soon as you begin the arti-
ficial respiration, and while you
are doing it, if others are present,
let them loosen any tight clothing
about the patient's neck, chest and
waist, and then keep the patient
warm by covering his limbs with
blankets or by rubbing them.

Keep up the artificial respiration
without interruption, until the
patient begins to breathe, or until
the physician states that rigor
mortis (stiffening of the body),
which denotes death has set in. Do
not give up hope until this stiffen-
ing does take place. Victims have
been resuscitated after being
worked on for eight or nine hours,
and even longer. The patient
should be watched very carefully
after breathing begins, and if it
stops, the resuscitation should be
again repeated.

Your assistant, if you have one,
may do as follows:

1. Place a cloth saturated with
ammonia or smelling salts near
the patient's nose, first trying it
out on himself so determine the
distance at which it will not
strangle.

2. Hit the patient's shoe heels a
few times with a stick, and repeat
this operation every five minutes
until breathing commences.

3. Keep the patient warm.
4. The administration of an oxygen
and carbon dioxide mixture very
markedly stimulates breathing.
The life-saving crews of the New
York police department and the
emergency hospitals now use this,
combined with the Prone Pressure
Method.

Do not move the patient until
breathing normally without assist-
ance. If absolutely necessary to
move him, he should be placed
on a hard surface, such as a door
or a floor of a conveyance. But you
must not stop or interrupt the
resuscitation.

Editor's Note: Dr. Peters can not diagnose nor give personal ad-
vice. Your questions, if of general interest, will be answered in the
column in turn. Requests for articles must be accompanied by a fully
self-addressed, stamped envelope and 2 cents in coin for each article,
to cover cost of printing and handling. For the pamphlet on reducing
and gaining, 10 cents in coin, with fully self-addressed stamped en-
velope, must be enclosed. Address Dr. Peters, in care of this paper.

13 Years Ago
In The News

From the files of The Paris
Morning News thirteen years
ago today.

Tuesday, July 3, 1917.

John L. Keeler, born in Ger-
many in 1835, a veteran of the Uni-
on army, died at his home on
South Twenty-fifth street.

Fire Marshal Shuffley reported
only three fire alarms for June,
two of which were false alarms
and the other a coal oil explosion,
damage \$25.

Sixty members of Paris battery
accepted invitation of the Rotary
club and were guests at the club
luncheon.

T. H. Gaudin and Mrs. Little
May Smith came from Hugo and
were married at the court house
by Justice Mike Brady.

ager of the Katy lines. He suc-
ceeds H. E. McGee, who becomes
executive vice-president.

DALLAS.—The duck that is be-
ing put against the fabled goose
that laid the golden egg is owned
by J. Kleiman of this city. This
duck lays 'em coal black, and has
laid seven black eggs.

GREENVILLE.—Dr. A. W. Rea-
ves of Jonesboro, Ark., has accept-
ed a call to become pastor of the
First Baptist church here to suc-
ceed Rev. J. E. Murrell, who re-
signed several weeks ago.

WILLS POINT.—Hay and cat
crops in this section are good with
all three-shers, and hay presses full
time. New hay is selling from \$10
to \$12 per ton and oats around
25 cents per bushel.

GROVETON.—Among the high
turnouts received from an acre of
tomatoes this season is that of
Emory C. Due, who received \$403
cash from the sale of 341 bushels
of tomatoes.

GRAND SALINE.—Harry Miller,
Grand Saline, was charged with as-
sault to murder following a shoot-
ing affray Tuesday night and Mil-
ler himself is seriously wounded.
Will Vick, city marshal surren-
dered to local officials.

GREENVILLE.—Almost im-
mediately after a negro forced a white
man's car into the curb and talked
"big" the negro came into the
police station on the run with the
white man after him armed with a
big knife.

VAN.—Citizens of Van held a
mass meeting Monday night to ar-
range plans for a celebration to
commemorate the arrival of the
first train into Van. A big bar-
becue will feature the event.

KAUFMAN.—Mrs. Lizzie Gaines,
94, died at her home in this city
Tuesday. She was the sister of the
late Rev. C. E. Fladger, who died
here several years ago.

ENID.—Arthur M. Hyde, secre-
tary of agriculture and Alexander
Legge, chairman of the Federal
Farm Board, will be in Enid all
day July 24 for conferences with
Oklahoma wheat growers.

A
WASHINGTON
BYSTANDER

By Kirke Simpson

WASHINGTON. (AP)—Those two
big, genial political gladiators, Jim
Watson of Indiana and Dave Walsh
of Massachusetts, have this in com-
mon—they both can get a lot of
fun out of the game as they go
along.

And they are alike, also, in that
both have a feeling for occasional
expansive gestures across the po-
litical partisanship deadline.

Due to this, with Watson leading
the way, the last day of the 18
months of tariff battle in the sen-
ate took an odd turn.

It could have been expected that
senatorial nerves would have been
frayed and senatorial tempers on
edge after such a siege. On the con-
trary, everybody had a good time.

The last half hour, with Watson
doing a regular, old-fashioned tariff
stump speech, but illuminating it
with repartee and a great deal of
humor, was as pleasant as a basket
of chips.

Senate Fun

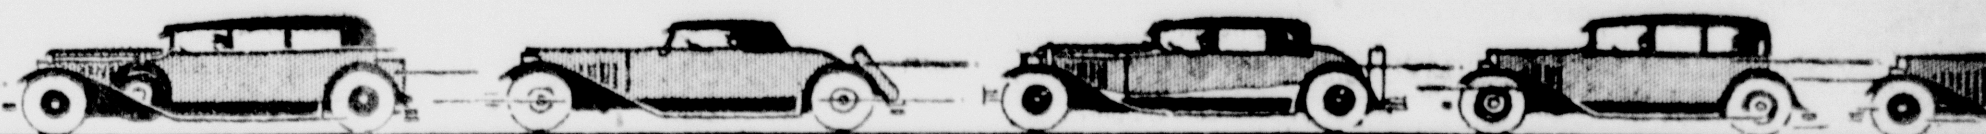

"We always have a good time
when I make a speech," Watson
once said in the senate.

It's here!
the new...longer-lasting

T E X A C O

MOTOR OIL

The new Texaco Motor Oil is here! It's longer-lasting! It's crack-proof! Here in this new oil are all the qualities which were never before obtainable in any one oil. There were oils that gave remarkable mileage. There were oils that flowed freely at zero. There were oils that were dewaxed and free from impurities that formed hard carbon. But not until now were all these desirable qualities to be found in any one single oil.

Because the new Texaco Motor Oil is crack-proof it does not break down under the high pressures and temperatures of the modern engine so as to form hard carbon. And because it is longer-lasting you get the benefit of increased mileage in every quart. The new Texaco is manufactured in five grades: C, D, E, F, and G, corresponding in body to S. A. E. (Society of Automotive Engineers) viscosity ratings. The price is 30c a quart (35c for Grade G). The right grade for your car is ready for you now. Drive in today.

SPUDDERS DOWN STEERS IN TEN INNING BATTLE

Wichita Makes Triple Play To Supply Flinging Feature

DALLAS, July 2. (AP)—Wichita Falls emerged with a 4 to 3 victory over Dallas Wednesday in a close,ly fought game. A home run by Bradbury in the ninth tied the score for the Spudders and another homer by Kloss scored the winning point in the tenth. The game was especially notable for the pitching of Tauscher for the Steers and Steengrabe for the Oilers. Steengrabe also making a triple play to Burns and Levey.

BOBBY RECEIVES HERO'S WELCOME

NEW YORK, July 2. (AP)—The Atlanta of the North and the New York of the South—the phrase is Mayor James J. Walker's—got together Wednesday and welcomed back to his homeland the British amateur and open golf champion. Before they were half through with him, they had that promising young Georgia lawyer, Robert Tyre Jones, Jr., fairly gawping for breath and looking about almost wildly as though for some avenue of escape.

On the steps of the City Hall he tried to tell his adoring home folks and those thousands of New Yorkers who had demonstrated to him how all the world loves a zolfer how grateful he was, but he found it a tough job.

"All this has overwhelmed me," he said huskily, "It—it's put me off my game."

Through paper snow and ticker tape, with firecrackers popping to the right and left, he rode up lower Broadway to the city Hall to be greeted by the mayor who calls Atlanta his second home.

"Less than a week ago," said Mayor Walker, "New York welcomed a man who had brought the two poles together, Rear Admiral Richard E. Byrd.

"Today and right on this spot two poles are again brought together. The world's best golfer greets the world's best golfer."

The youngest bank director in Atlanta, Ga., got very red under his tan and grinned like a bashful kid.

BOSTON RED SOX NOSE OUT TRIBE FROM CLEVELAND

Morris, Relief Pitcher, Drives In Winning Run In Ninth

BOSTON, July 2. (AP)—Big Ed Morris, in the role of relief pitcher, hammered a two base hit against the left field fence in the last of the ninth to send Miller over the plate with the run which enabled the Red Sox to defeat Cleveland 4 to 3 Wednesday.

Oliver of the Red Sox had four hits in as many times up.

RUSS HITS ANOTHER AS YANKEES DIVIDE PAIR

NEW YORK, July 2. (AP)—The Yankees and the Chicago White Sox divided their double header Wednesday, New York winning the first game 5 to 1 and Chicago pounding out a 15 to 4 victory in the second. Carl Reynolds of Chicago hit three home runs in succession in the first three innings of the second game. Babe Ruth hit his 31st homer in the opener.

SENS SWEEP DOUBLE BILL WITH ST. LOUIS BROWNS

CRANE AND HOGG GO 'JIM YOUNG'

Two Texas Demo Leaders Recommend Young For Governor

M. M. Crane, former attorney general of Texas, and Democratic wheelhorse, and Mike Hogg, son of former Governor Jim Hogg, Wednesday issued statements declaring their wholehearted endorsement of Jim Young for governor, and announcing their vigorous support of his candidacy.

"Most heartily commending him" to the Democrats of Texas, General Crane described Young as "a man capable of leading and harmonizing the various factions of the party with a view to accomplishing results."

He referred in biting language to Herbert Hoover's support of Dwight W. Morrow, a wet, and advised all dry Democrats to stick to the Democratic party, asserting that anyone deserting the Democratic party for the party of a Vice President of Philadelphia, Bill Thompson of Chicago and the Hoover-Morrow combine, "needs medical attention."

He praised the opposition of Young to the statewide bond issue and summing up stated that Young "is known as an able lawyer, a good citizen, a splendid neighbor, and a man fully acquainted with public affairs. He spent ten years in Congress, quitting that service when he could have easily been re-elected. He is a Democrat of the old school, a consistent prohibitionist since 1887 and therefore he did not become one to meet the exigencies of any particular campaign; he has been a consistent, modest, unostentatious member of the Baptist church for many years. He has the confidence of his community, of the congressmen with whom he has served, and of the business world with which he has been in contact. If elected he will give us a wise, economical administration without any fireworks or self-advertising, and without making any promises he is not sure he can fulfill. He will be fair to all rich and poor."

The brief statement issued by Mike Hogg is in its uncompromising language reminiscent of his great father. Announcing his aggressive support of Mr. Young, he characterized him as "the one man in the governor's race whom I consider safe for all classes of people and at the same time who can be elected."

He predicted an overwhelming vote for Young in the first primary stating that "he is gaining ground

ENDURANCE FLYERS KEEP ON AFTER BREAKING RECORD

After smashing the world's endurance record of 429 hours in the air, the City of Chicago continued to drone away over Sky Harbor airport, near Chicago in an effort to establish a new record that will stand for some time to come. At top is an unusual photo taken from overhead as the plane, piloted by John and Kenneth Hunter, received food from the refueling ship. Left below, Walter and Albert Hunter; of the refueling plane, with Mrs. Hunter, mother of the four brothers, reading congratulatory telegrams at the airport after the record was broken; lower right, part of the tremendous crowd gathered at the airport to watch the now famous plane.

in all parts of Texas, and from the information coming to me during the last few days, the wisecracks are going to be stunned by his tremendous following at the polls on July 26th."

Both General Crane and Mr. Hogg will speak in behalf of Mr. Young at rallies and radio.

LIONS CLUB WILL MEET FOR LUNCH

The Lions club will have its weekly meeting Thursday at noon at the Gibraltar hotel for lunch.

This will be the regular monthly business session and full attendance of all members is desired.

Ausmus Funeral Today
Funeral services for P. D. Ausmus will be held Thursday morning at 9 o'clock at the home of his daughter, Mrs. Clarence Jeffus, 239 North Twenty-seventh street. Burial will be at Evergreen cemetery.

ENDURANCE HOP

(Continued from Page One)

furnishing fuel will expire. The offer amounts to \$10,000 if the 520th hour is reached.

Earnings Are High
At 4:40 o'clock, when they were 55 hours ahead of the previous world's record, they had earned \$10,000, not including the commission from the airport gate receipts.

For their two daily broadcasts over the Columbia system the airman receive \$1 a minute so long as they stay in the air. The radio bill at 4:40 was \$1,420.

The first scheduled broadcast for Wednesday failed because of choppy winds. An army radio plane, operating a short wave transmitter, was unable to contact the endurance plane.

Broadcasters Clash
The appearance of the sheriff was only the beginning of the discord. Rivalry between the National Broadcasting company and Columbia systems, both of which have broadcast equipment at Sky Harbor, erupted out after a ship carrying Columbia equipment made a second unsuccessful attempt to broadcast from the endurance ship.

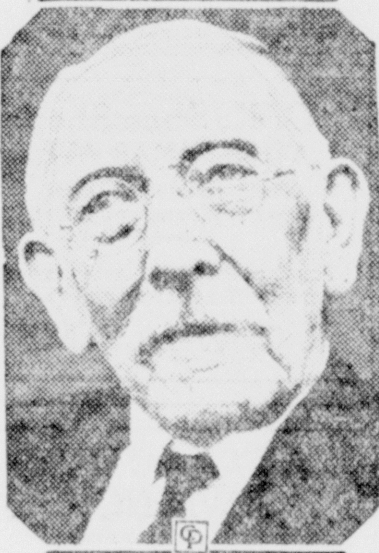

The National Broadcasting company sent up equipment, made a contact and, officials at the field reported, succeeded in broadcasting a few words from the flying Hunters.

The Hunter brothers according to N. B. C. officials broadcast as follows:

"There isn't much to say up here, and there isn't much to do. We're just sailing along."

A spokesman for Columbia then announced his system had a contract with the Hunter brothers, and that an attorney had been consulted regarding the business of

First Pro Player

When the Niagaras of Buffalo, N. Y., made their debut as the first professional baseball team, Major A. M. Wheeler, above, of Baltimore, Md., was on their roster. At 89 he is its oldest survivor. He played before and after the Civil war.

the notes during the day said most of them concerned "financial matters."

Dollar Per Minute

PEORIA, Ill., July 3.—Blue Ribbon Malt, a Central Illinois firm has offered the Chicago endurance flyers one dollar per minute for every minute they stay aloft after 6 o'clock p. m. July 1.

In encouraging the Sparta boys to keep going, the Blue Ribbon Malt firm wired, "Hurrah for Hunter brothers, the record breaking plane City of Chicago, and central Illinois."

This extra gift carries with it felicitations and gratitude of all South Central Illinois.

SUBSCRIPTIONS FOR OLD COLORED PEOPLES HOME

The News is requested to announce that the home for old colored people has never been paid for. It is said that there is still an unpaid balance of \$300 which the members of the City Mission (colored) are trying to raise by subscriptions. Any help toward paying the balance on the home will be greatly appreciated. Donations from both white and colored citizens of Paris are being solicited.

Mrs. J. R. Cassidy and two sons left overland Wednesday morning for a two months' trip to California.

Mrs. A. F. Hasselmeier and four daughters, Misses Eleanor, Ivy, and Hazel Hasselmeier and Mrs. J. R. Jackson and two children are here from Harlingen to visit Mrs. Hasselmeier's sister, Mrs. W. K. Jeffus and other relatives. They formerly made their home here.

Jack Oakie Comes In 'The Social Lion'

Jack Oakie is the craze of the hour.

"The Social Lion" is his first starring picture and it comes to the Plaza theater tomorrow for a two-day engagement.

Starting with a small part in Clara Bow's "The Fleet's In," he has climbed to a well-deserved stardom with phenomenal speed, shows a wealth of comedy, dancing and acting ability in "The Dumb-My," "Chinatown Nights," "Close Harmony," "Hit the Deck" (RKO), "Sweetie" and "Paramount on Parade."

The play is taken from Octavus Roy Cohen's story, "Marco Himself." It is a comedy-drama. Not a series of disconnected gags, but a genuine action-plot tale about a young man who happens to be a very funny fellow.

Octavus Roy Cohen is the author of the famous Saturday Evening Post short stories about life in Birmingham's Darktown. He has also written numerous other tales, all of them endowed with rare and original humor, about society folk, athletes, business men—in fact all phases of our modern life.

ITALIANS BOOST

(Continued from Page One)

country in that they counted as imports machines which were assembled by American plants in that country from parts sent from this country.

Both Henry Ford and the General Motors company have established branch plants at Trieste.

ROME, July 2, (P)—Italian import duties on automobiles have been raised between 110 and 120 per cent by royal decree.

The sudden blow at automobile imports, which went into effect on Monday but escaped notice for 36 hours, applied particularly to small cars. The decree raising the tariff was drawn up June 27. The council of ministers had met the day before without announcing any such step. King Victor Emmanuel, Premier Mussolini and other government officials immediately signed the decree. The parliament later will convert it into statutory law but today it stands as an effective barrier to commerce in foreign motor cars.

Protection of home industries, including the vast Fiat enterprise at Turin, was responsible for the action, according to minister of corporations Bottai, who is mainly responsible for the radical tariff. He urged its enactment in the interest of home labor.

Small automobiles, such as the American Ford, are affected most. On this class of cars the increase was from 7,000 lire to 16,000. On higher priced cars the percentage was somewhat less. One high priced car was covered with a tariff increase of 8,000 lire. The lire is worth about five cents American.

Agents of the American manu-

facturers discounted the explanations of domestic necessity and saw in the move retaliation against the recently inaugurated tariff laws of the United States.

VETERAN PLANE

(Continued from Page One)

against stunt flying close to the ground, but that he did not possess a license to fly at all.

When the private conference between the inspectors and the airman was concluded, the officials announced they had been mistaken and that Fokker had a license but had let it lapse by neglecting a periodical medical examination. He was then given his test, was passed, and was told that he had not had a pilot's license since 1928, but he immediately took the necessary tests and was told a renewal license would be sent him at once.

Fokker was born in Holland. When the world war started he attempted to sell his planes to the Allies. They turned him down and his offer to Germany was accepted.

One of his inventions was used by both sides in the war, for it was he who first devised a scheme for so synchronizing machine guns and airplane engines that streams of bullets might be fired through a propeller.

After the war Fokker came to America, and began manufacture of planes here.

Not long ago the Fokker company was reorganized and control went to the General Motors Corporation.

WASHINGTON, July 2, (P)—Anthony Fokker was tentatively assessed \$500 by the commerce department Wednesday for flying a

plane without a pilot's license.

The assessment, fixed under law, is subject to revision by the department after a study of the seriousness of the offense.

Fokker took a plane into the air after the departure of the Southern Cross from Roosevelt Field, N. Y. today and was examined by commerce department inspectors after he landed. They found that he had not had a pilot's license since 1928, but he immediately took the necessary tests and was told a renewal license would be sent him at once.

"WOULDN'T TAKE \$1,000 FOR GOOD

Argotane Did My Wife, Says Wichita Man

"It simply cannot find words to express my appreciation for the benefit my wife derived from Argotane," said J. C. Shart of 1204 Clark, Wichita Falls, a retired ranchman.

"If any one were to offer me a thousand dollars in cold cash for the good it did her, I wouldn't take it for Argotane has helped her more than anything she has ever taken. She thinks so much of it, she has persuaded several of her friends to try it."

"For seventeen years, my wife has suffered from a severe case of indigestion. She had to be very careful of what she ate, and then she would suffer from gas something awful. She had bilious and dizzy spells and was in a very weak and run down condition. She had a bad case of constipation, and had to take strong laxatives. She never got a night's rest, but would roll and tumble all night long."

"Argotane was recommended so highly, we decided that she would try it. You should just see her now. She sleeps fine and has gained in strength and can now eat just anything and best of all, she doesn't have those nervous, bilious and dizzy spells any more. Her nerves are perfectly quiet now, and her improvement is wonderful. We want to say a good word for Argotane, because it has helped so much for her. My wife is enjoying better health now than she has in years."

Genuine Argotane may be bought in Paris at the Palace Drug Store. —Adv.

As Paris Oldest Automobile Firm We Start Our Tenth Year's Business In Paris

During the years we have been in business in Paris, we have made hundreds of new friends. We value their goodwill and confidence more than mere words can tell. We have attempted to fulfill our duty to our customers as best we could—we believe that we have succeeded in doing this. As we start our tenth year of business we shall strive to serve our customers even better than before.

JOHN A. SCARBOROUGH
JOE B. CALDWELL

In Our New Car Sales Department

We believe the Model A Ford passenger cars and trucks offer the best value money can buy. From the large number of buyers turning to Ford products, not only in Paris but throughout the whole country, unquestionably most automobile buyers are turning to Ford.

In Our Used Car Sales Department

We offer the most desirable types of used cars. Selling a low-priced new car and the most popular new car, we are able to select the best used cars. Naturally, customers trading their used cars to us do not expect as much for them as they do when they trade them in on higher priced cars. Therefore we can offer these used cars to our customers for less.

In Our Service Department

We carry a complete stock of genuine Ford parts. Our shop is equipped with the most up-to-date service equipment for Ford cars. Our men are trained in Ford Factory Service Schools.

It is our earnest desire to give better value for the dollar spent with us. We believe that real success can come no other way.

DAD'S GIRL By EDNA ROBB WEBSTER

THE STORY OF A GIRL WHO DESERVED TO WIN

A black and white photograph of a young woman sitting on a wooden chair, looking down at a book or paper she is holding. A young man stands behind her, looking on. The woman is wearing a light-colored dress with a dark collar, and the man is wearing a patterned kimono and glasses. The image is grainy and has a vintage feel. In the bottom right corner, the number '12' is visible.

Real Estate Loans

\$12 PER MONTH including interest repays a \$1000 loan in 128 months. PARIS BLDG. & LOAN ASSN.

ROXTON

ROXTON, July 2.-Thelmer Springer cut a thumb and forefinger Tuesday while running a row binder.

Mrs. Will Jones entertained about thirty young people with a surprise birthday party for her son, Floyd. Games were played and punch and cake were served.

Mrs. Mayfield from Oklahoma, and Walter Friday and family from Riverside, Cal., are here visiting.

At the meeting Tuesday evening at the farmer's hall Edgar Little from Caviness, Dr. O. E. Hayes and R. M. Hutt of Paris joined J. P. Maxwell, telling of the poultry and dairy trip to a representative gathering.

Tuesday night's rain was a godsend to this area but more rain is needed. While some are of the opinion that the rain came too late it will help to keep the corn from shrinking.

Mrs. F. D. Coppin of Waco with her husband is a guest of Rev. and Mrs. C. D. Hardy. Mr. Hardy will open a revival meeting Friday evening at Howland and will be assisted by Mr. Coppin and Miss Florence Cooper of Waco. He invites all Roxtan people to attend.

The daily vacation bible school commencement was held Tuesday evening at the Baptist church where the work done by the more than 100 students was exhibited to the parents and friends. The following program was given: Grand march, pledge to the American and Christian flags and the Bible;

Scriptures by the children; First Psalm by Charles McFarbridge; Character stories by Tilford Morgan and Maxine Hughes; story of Adam by Louise McAnis; story of Noah by Ross Graves; story of Cain and Abel by Dorothy Rae Fry; story of Joseph by Marie Myers; sword drill by the children, closing song and prayer.

Ross Payne and Frank Sanford are here from Dallas.

Dr. M. H. Maness went Tuesday to see his wife at the sanitarium and found her condition unchanged.

Mrs. Sonora Perry visited in Ben Franklin Tuesday.

Mrs. Ernest Crafton of Paris is visiting here.

Roxtan and Deport played baseball Tuesday, Deport winning.

Mrs. C. L. Cunningham and Ernest Crafton and Miss Hattie Rhodes went to Ben Franklin Tuesday afternoon to a party given by Miss Ruby Clower.

Mr. and Mrs. C. R. Caldwell, Jr., went to Paris Monday to see her brother Fred Minton, and family of Beaumont who are visiting there.

LINDEN Linden, July 2.-A light shower fell here Tuesday night but not enough to benefit the crops. Farmers are getting blue over the continued drouth.

Mr. and Mrs. Theo Slusher spent Sunday at Mosely.

Louie Trent, Bob Wilson, Mrs. E. O. Johnson and son from Dallas spent Sunday night here.

Some of the young people are attending the meeting at Blossom. They report fine services.

KENNY'S SON ELOPES WITH BRIDE

As a student of the School of Foreign Service in Washington, D. C., where men are trained for the diplomatic corps, William F. Kenny, Jr., inset, took leave to go to Baltimore, eloping with Miss Adelaide Bride, above, daughter of a prominent corporation lawyer at the capital. Kenny is the son of William F. Kenny, New York contractor and friend of former Governor Al Smith.

Notices by the children; First Psalm by Charles McFarbridge; Character stories by Tilford Morgan and Maxine Hughes; story of Adam by Louise McAnis; story of Noah by Ross Graves; story of Cain and Abel by Dorothy Rae Fry; story of Joseph by Marie Myers; sword drill by the children, closing song and prayer.

MARKETS

New Orleans Cotton
NEW ORLEANS, July 2. (P)—Cotton was comparatively quiet Wednesday with price fluctuations moderate. Owing to unfavorable cables and beneficial rains in the central belt the market opened lower. It closed steady net unchanged to 9 points down for the day. Active months made new highs right at the end with October at 13.12 and December at 13.28.

New York Cotton
NEW YORK, July 2. (P)—Early declines in cotton Wednesday under selling inspired by reports of more favorable weather in the south and relatively easy cables were followed by rallies on covering which found comparatively few contracts for sale after early offerings had been absorbed.

July contracts sold up from 13.35 to 13.52 and closed at 13.50 compared with 13.53 at the close of the previous day, while new October advanced from 12.96 to 13.14 and closed at 13.11.

The general market closed firm at a decline of 3 points on July but generally 1 to 5 points higher on new crop months.

A private crop report was published placing the condition at 70.5 compared with 71.0 at this time last year, which appeared to be without any particular effect and the market. The weekly report of the weather bureau was commented upon by local traders as generally favorable except for its references to dry weather in some western and central belt sections, the effects of which seemed to be minimized by the showers shown in Wednesday's detailed reports.

Chicago Grain
CHICAGO, July 2. (P)—Disturbed by a reported tremendous shortage in this season's French wheat crops as compared with last year, the wheat market here went suddenly up Wednesday. Cables were received indicating a yield of only 257,000,000 bushels for 1930, showing 64,000,000 bushels reduction from the 1929 total and standing out sharply against a 5 year average of 250,000,000 bushels.

Active purchasing of wheat future deliveries here was also stimulated by relative scantiness of primary receipts today in the United States, and by persistent advice that farmers were refusing to sell as freely as in general has been the rule at harvest.

Fort Worth Livestock
FORT WORTH, July 2. (P)—With buyers inclined to pay lower prices for most classes of cattle, trading was slow at Fort Worth Wednesday. Steers 12 to 25c lower; cows 10 to 15c, yearlings

COULD HARDLY DO HER WORK

Strengthened by Lydia E. Pinkham's Vegetable Compound

Mission, Tex.—"I have used a good deal of your medicine and always find it gives wonderful help. I was feeling so weak and miserable that I had to lie down very often and I could hardly do my housework. I read in the paper how Lydia E. Pinkham's Vegetable Compound had helped other women who were in the same condition so I said I will try it for myself. I am very much better now and I recommend this medicine, and will answer letters from women asking about it."—Mrs. J. W. ALBERTSON, 1015 Miller Avenue, Mission, Texas.

EXPLANATION OF YESTERDAY'S CARTOON

LAKE TAHOE, THE LAKE OF MYSTERY, Lake Tahoe in California, the mystery lake of the sky, is surrounded by snow-clad mountain peaks, yet its clear, ice cold water never freezes. An object on its bottom is said to be distinctly visible at a depth of 120 feet or more. Its great depth (soundings have been made to a depth of 1645 feet in spots) and its volcanic origin, dating back to the Tertiary Period of our globe, probably account for the many curious physical phenomena it offers.

THE POLISH CLUB IN BALTIMORE. The literal translation of the long name of the Polish society is: Society of the name of Thaddeus Kosciuszko under patronage of St. John the Baptist—forty-first group of the Polish post mortem organization of Delaware under the patronage of the arch-wonderful Madonna. A TOAD CAN LAY A MASS OF EGGS TEN TIMES LARGER THAN ITSELF. The mystery of the incredible volume of eggs a toad can lay within a few hours can be explained by the swelling of the jelly on contact with water.

around 25c, with calves about steady on most sales.

Steers ranged from \$5.55 to \$6. Common light bulls cleared from \$3.50 to \$4.50 with the better ones in the \$5 range.

Canner cows were about steady with some loads at \$3 but \$2.50 bought odd lots, and a few at \$2.25. Culler cows sold around \$4 with butcher cows around \$5 and some of the best cows rated \$5.75. The better cows showed a decline of 10 to 15c.

Yearlings were off 25c with a load at \$10. Common packages sold from \$2.50 to \$7. Cull calves \$3 to \$4.

Hogs mostly steady but some sales around 15c lower. Rail and truck top \$8.55. Packing sows from \$7 to \$7.50. Supply light.

New York Stocks

NEW YORK, July 2. (P)—Professionals had the stock market all to themselves Wednesday, but found it hard to keep busy. Trading slumped to the smallest volume in two years, only 1,231,000 shares, representing more or less

routine short covering and profit taking.

The apathy was laid at the door of the impending holiday.

After opening a little higher, the market ran into selling which centered on U. S. steel. When the stock refused to break below yesterday's close, traders were satisfied to take a conservative position and a covering movement began throughout the list. Under this influence prices rose consistently until late in the last hour when profit taking reduced the improvement, leaving net gains of one to two points in many active shares.

Further indications of unsettlement in copper were seen in the offerings by a few custom smelters at 11 1/2 cents a pound, a cut of a half a cent.

HAPPY MOTHER ENTHUSIASTIC ABOUT KONJOLA

Relates How New and Different Medicine Did Wonders For Her Little Boy of Twelve

HARMON GLAZE

Results are what count and Konjola can be counted on for results. Sufferers want relief, not promises. Konjola has made a matchless record simply because it does the things it is designed to do. Take as a typical example of Konjola at work, the case of Harmon Glaze, 12, whose mother, Mrs. Annie Glaze Route 4, Loneke near Little Rock, Ark., says:

"My boy Harmon, 12, had trouble about five years ago, and his health since then was not good. He frequently had fever and had attacks of nausea. He had no desire to play and his appetite was poor. Nothing I gave him seemed to do any good. Konjola had helped me so much that I decided to give it to Harmon. Today, he is like a different person. He eats, sleeps and plays like other children and is no longer subject to fever. I am still giving him Konjola for it has done so much for both of us."

So it goes: victory after victory. Konjola is given the chance to prove its merits. You can put your faith in Konjola feeling that you will be rewarded abundantly. Konjola is sold in Paris, Texas at The Palace Drug Store, and by all the best druggists in all towns throughout this entire section.

Scarborough And Caldwell Have 9th Anniversary

Scarborough & Caldwell, local automobile dealers are celebrating their ninth anniversary beginning this week. This firm is the oldest automobile firm in the city and is composed of John A. Scarborough and Joe B. Caldwell.

Both members of this firm are

POLICE SIGNALS ARE INSTALLED

Flashes of Amber Light To Call Patrolmen To Desk Sergeant

As a part of the reorganization of the police department of Paris, a system of flash signals was installed and tested Wednesday. The signals are operated in connection with the traffic lights by means of a switch at the police station. The desk sergeant is able to summon policemen from the four sections of the city simultaneously. The signal for all the policemen to communicate with the desk sergeant is three flashes of the amber light.

There is one traffic light yet to be placed by the city. The con-

native of Fannin county, Mr. Scarborough being born at Bonham, and Mr. Caldwell at Honey Grove.

Besides being the oldest automobile firm in Paris, the firm of Scarborough & Caldwell is one of the most progressive automobile agencies in the city, and has the sales agency for two popular makes of cars and trucks. Both members of the firm are under forty years of age, and are well known throughout the city as aggressive progressive business men.
